Although its influence has been widespread throughout our culture, most people have little knowledge about this far-reaching spiritual movement. From the self-help industry to Alcoholics Anonymous and from Oprah Winfrey to the Word-Faith movement, the principles of the New Thought movement have been instrumental in helping transform the lives of millions of people world-wide.

★★★★★ "GREAT FILM!!!! A MUST SEE!!!!"

"This film tells a great story about a spiritual movement that is practical, powerful, sensible and universal "

"Everything is connected - That's the Law" -- Kathleen Gage

Excellent look at past and present of new thought! As a student of New Thought and a program director of a Unity Church I have been waiting for a documentary about New Thought that can be used to give people a well presented introduction and history of new thought. Well worth the time to view and share with others. -- Andrew Kelsay

"'What Is New Thought?' is an expertly produced overview of the influence and impact of New Thought in our world. In addition to the great work all of the Schools and Ministries of New Thought are doing, the film has captured some of the ways New Thought has, and is, influencing the family of humanity. Moving toward planetary peace and well being for all." - Dr. Blaine C. Mays, President, International New Thought Alliance
