

# The Four Keys to LIGHT Initiation

## Sacred Teachings Facilitated by Genii Townsend

Genii Townsend is author of *The City of Light Sedona* and *SOMETHING'S COMING! Universal Cities of Light, Love and Healing!* She has been providing this sacred teaching on The 4 Keys to Light for over 20 years.

The Teachings assist you in developing the ability to consciously connect and remain connected to your Supreme Light and the higher Light Intelligences that are assisting and guiding your lifestream. You will receive and remember these ancient and most holy teachings that will catapult you into mastery, self empowered knowing, sacred trust and responsibility.

In the first key, you will anchor **The Word**, the most powerful word of Creation to support your mission in the planetary shift and the mastering of dualistic energies. The second key, **Atonement** is the harmonic simplicity of tone to align all of your energetic bodies to the rhythms of the Universe.

In the third key, your guiding forces of Light will make themselves known as you learn to connect to, transmit and use Divine Intelligence in your life's mission. The 4th key is considered the most celebrated moment of your embodiment. **The Light Linkage** will greatly accelerate your ongoing advancement, as an open channel of Love, into Oneness as any remaining separations are abolished through the Power of Light.

We all must exercise the newly expanded awareness while remembering that our mission is to embody self mastery on every level. With the assistance of The 4 Keys to Light, we deepen our commitment and anchor our mission as Ambassadors of Light.

# The 4 Keys to Light

The old often repeated saying "When the student is ready, the teacher appears" and so it is with this ancient teaching given in 4 sacred Keys for modern days usage. The power of the Genie is well known in fables and this Genii is no exception as she brings forth long kept secrets of universal wisdom to elevate and empower those who seek such an advanced leverage.

Since The 4 Keys to Light contain much power and light enhanced information and has, until this time been given to only those who requested an unknown advanced education due to possible misuse of it did they find that teacher with the Genie power readied to be transferred to a student who would take care of it and it's use. Thus what could be said is it is one of God's best kept secrets.

From the God self of the Genii comes the treasures she has held sacred. The students are enlightened while receiving Light elevations during the sessions while learning of The 4 Keys material. That includes each student learning of the personal Soul Guides that brought them to this teaching. This is a program not to be missed with all it contains as planetary changes take place.

## 4 Keys to Light Testimonials:

"Are you ready to take the next step in your spiritual journey? Buckle your seatbelt and get ready for an extraordinary journey into higher consciousness through The 4 Keys to Light as taught by Genii Townsend of Sedona, Arizona. I was initiated into The 4 Keys by Genii eight years ago at a time when only a select few received these teachings. It's been a nonstop ride of being connected to Universal guidance that one cannot even imagine. At this time, Genii has been guided to impart these teachings to those who are ready and willing to make that next step. I'm certainly glad I did." Richard LaDuke

"Genii took me through the 4 Keys in 2000 and it certainly changed my life. There was a subtle shift at first, then as I traveled farther and farther away from the ceremony I began to notice major shifts that I was able to attribute back to that time. My path became clear, I trusted myself and my guidance more the Universe stepped in to reward me for being open. Life always has its ups and downs but after The 4 Keys I could understand the reasons behind some of the lessons I was getting. That doesn't mean I always liked them, but at least I could accept them. Before The 4 Keys I feel like I was just wandering around but after the Keys there was clarity for me. I can definitely say that having Genii take me through The 4 Keys was a turning point in my life. I wish I had met her years ago!"
